R E P O R T .

In conformity with the 21st Article of the Constitution, the Directors of the Jews' Hospital submit their Report for the year 5616-17 (1856-57).

By reference to the report hereunto annexed, it will be perceived that from the date of the last report, 25th December, '55-6 to 25th December, 5617, there had been admitted to the Hospital 216 patients. Of these, had been discharged,

Cured,	-	-	-	-	-	-	-	129
Improved,	-	-	-	-	-	-	-	44
Incurable,	-	-	-	-	-	-	-	11
Deaths,	-	-	-	-	-	-	-	14

Remaining in the Hospital,	-	-	-	-	-	-	-	25
----------------------------	---	---	---	---	---	---	---	----

The Directors refer the members to the Report of the Finance Committee, showing the receipts and expenditures during the past year, and estimating the amount required for the support and maintenance of the Hospital for the ensuing year, together with a schedule of the real and personal property of the Hospital. The Directors have been able to add to the Permanent Fund the sum of two thousand dollars, which Fund now amounts to seven thousand dollars—one thousand dollars a donation from N. K. Rosenfelt, Esq., the interest whereof is to be appropriated for a specific purpose, and eight hundred dollars a deposit by the Bachelors' Loan Association, to be reimbursed if ever called for by its members.

The Directors deemed it inexpedient to celebrate the anniversary of the Society by any public entertainment; and, in order

to obtain a sum sufficient for the support of the Hospital for the ensuing year, invited a number of gentlemen to solicit contributions, and to induce their friends to become members of the Institution, and though other societies were soliciting aid at the same time, the Hospital has met with good success. The amount subscribed is not yet ascertained, but the Directors believe it will exceed three thousand five hundred dollars. The number of members at the commencement of the year was 250; at the present time the number is 488—showing the gratifying increase of 238.

The usefulness of the Hospital is daily increasing. The applications for admission are numerous. The ability of the Directors to extend the benefits of the Institution depends on the support and co-operation of its friends; and, on reference to the Report of the Visiting Committee, the members will observe the number of applications, admissions, discharges, and deaths, and also on account of some interesting cases which have been successfully treated in the Hospital during the past year. The Committee also hope that the Directors may soon be enabled to enlarge the Hospital, so that none may be excluded from its benefit on account of a contagious disease. The Directors again submit to the consideration of the members the alterations and amendments to the Constitution which have passed the Board unanimously, and which failed to receive the constitutional vote of the Society, in consequence of the failure of a quorum at its last Annual Meeting. They also submit some additional amendments, the adoption of which, the Directors deem, will be for the interest and advantage of the Society.

The Articles, as proposed to be amended, will read as follows:

Art. VII.—In case of the death, resignation, disqualification, continual absence from the city, or neglecting to act, of any Director, the remaining Directors (a majority of the whole number being necessary for a choice) may fill his place until the next Annual Election, when a Director shall be elected for the unexpired term; and the seat of any Director may be declared vacant and filled, who shall be absent at three successive meetings of the Board.

Art. XXVIII.—No less than one-fourth of the annual receipts

of the Society, from all sources, shall be reserved and set apart for the accumulation of a Permanent Fund.

Art. XXXVIII.—By-Laws, Rules and Regulations, for the government of the Officers, Directors, of the meeting of the Directors, and for conducting the Hospital, not inconsistent with this Constitution, shall be prescribed by the Board of Directors, subject to such alterations and amendments as a majority of the members of all the Board may agree to from time to time.

Art. XXV.—Any Israelite not married contrary to the Jewish laws, can, by paying five dollars per annum, become a member of the Society.

Art. XXII.—One-fifth of the whole number of members shall be necessary to form a quorum until the number of members exceed two hundred, after which, the ratio of increase shall be one for every twenty additional members, until the number reach seventy-five, which number, it is hereby declared, shall constitute a legal quorum.

Art. XXXIX.—Alterations, additions or amendments to the Constitution shall only be offered at an annual meeting. Notice of motion, stating the alteration, addition or amendment shall be given at such annual meeting, which shall be entered on the minutes, and placed before the members of the Society at the next annual meeting, or at a special meeting called by requisition, according to Article 21 of these By-Laws. The proposed alterations, additions or amendments shall be printed on the notice of meeting, and served on each member, as provided in the aforesaid article, when, if a majority of the Society agree thereto, it shall become a law. The Board, however, may propose and pass any alteration, addition or amendment at their stated meeting, which, before being put in force, shall be offered at the next annual or special meeting of the Society convened for that purpose. Such amendments, &c., to be printed with the notice, as specified above, when, if two-thirds of the members present agree thereto, it shall become a law and part of the By-Laws of the Society.

The Directors again invite the community to visit the hospital, and observe its practical benefits, the care bestowed for the comfort and restoration of the sick—its cleanliness and ge-

neral arrangements—to see disease in all its stages, and listen to the tales of poverty and destitution ; but few would leave without becoming members or otherwise contributing to its support.

The Directors are highly gratified in bearing testimony to the skill, assiduity and zeal with which the duties of the Resident Physician, Dr. Blumenthal, have been performed. To the medical staff who have gratuitously contributed their valuable services, they cannot express too strongly their high appreciation of their services, and their sense of gratitude for the success which have attended their efforts ; and to the House Surgeon, Dr. Bryant, they also express their satisfaction at the manner in which he has discharged his duties. To Mr. Raymond, the Superintendent, the Directors desire to add their appreciation of his services ; the neatness, cleanliness and good order with which the Hospital has been kept, and the wants and comforts of the patients secured, they attribute to his indefatigable exertions.

In conclusion, the Directors submit their Annual Report to the members and patrons of the Hospital, and trust that, through their continued exertions, the means to extend the usefulness of the Institution may be largely increased, and that it may attain a character and capacity comensurate with the wants of all who may be driven to seek its benefits.

All of which is respectfully submitted.

Directors.

New York, Tebet. 8, 5617 (Jan. 4, 1857).

Report of Visiting Committee.

The Visiting Committee in accordance with the rules, respectfully report to the Directors of the Jews' Hospital that, during the year commencing December 25, 5616 (1855), and ending December 31, 5617 (1856), they have held one hundred and five meetings, and have had under consideration two hundred and sixty-six applications for admission to the Hospital, of which number two hundred and sixteen were admitted, classified as follows:—

<i>Natives of</i>		<i>Natives of</i>	
United States, - - - - -	5	Bohemia, - - - - -	7
England, - - - - -	9	Sweden, - - - - -	2
France, - - - - -	3	Switzerland, - - - - -	2
Germany, - - - - -	110	Galicia, - - - - -	1
Poland, - - - - -	64	Hungary, - - - - -	1
Holland, - - - - -	6	Denmark, - - - - -	1
Russia, - - - - -	1	Morocco, - - - - -	4

The other applicants were rejected for the following reasons: From being afflicted with malignant, contagious or incurable diseases. Several, whose diseases were known to be incurable, were nevertheless admitted, because, in the opinion of the physicians and surgeons, they were susceptible of relief, and because, in the opinion of your Committee, consumptive patients, should not be permitted to linger out a wretched existence in a strange asylum, whilst a Jews' Hospital is in being to afford hope to the dying pilgrim.

Of the number admitted, 16 were pay patients; 200 gratuitous; in all, 216.

The number of males was,	148	
Females, - - - - -	68	216
Remaining from last report, - - - - -	-	9
Total, - - - - -	-	<u>225</u>
The total number discharged was, - - - - -	-	186
Of these were cured, - - - - -	129	
Improved, - - - - -	44	
Not improved, - - - - -	11	
Births, - - - - -	2	
Died during the year, - - - - -	-	14
Remaining in the Hospital, - - - - -	-	<u>25</u>
Total, - - - - -	-	225

The causes of the deaths during the year are duly recorded in the books of the Institution, which are open for general inspection.

The number of beds furnished for the use of the Hospital, is forty-five.

The largest number of patients in the Hospital at any time, was - - - - - 28
The smallest number, - - - - - 9

The period of residence of the patients has been :—

From 1 day to 1 week, - - - - - 48
“ 1 week to 2 weeks, - - - - - 47
“ 2 “ to 4 “ - - - - - 58
“ 4 “ to 8 “ - - - - - 44
“ 2 months to 4 months, - - - - - 19
“ 4 “ to 8 “ - - - - - 9

Total, - - - - - 225

Table of ages of those admitted :—

	Males.	Females.	Total.

2 Traders,
10 Unknown.

The Committee refer the Directors to the able report of the Resident and Attending Physician, Dr. Blumenthal, as embrac-

ing matters of general interest, and also his remarks concerning the admission of patients suffering from typhoid fever, and which your Committee have alluded to in another part of this report. The statistics have been prepared with great care, and the Committee have availed themselves of his report to present them to the Directors.

The mortality, as seen by the tables, is not quite 7 per cent., about the same as the last Semi-Annual Report, and fully establishes the causes there assigned for the proportion of deaths, just one-half of them being ascribable to consumption and typhoid fever.

The Jews' Hospital has been in practical operation for eighteen months, and for your Committee to describe all the good it has accomplished, the sad hearts it has gladdened, the diseases that have been cured within its walls, the maimed limbs that have been healed, and the comfort it has spread o'er the countenances of dying co-religionists, would be an onerous task ; yet, your Committee cannot refrain from especially noticing a few cases which have been successfully treated.

A poor widow, in a wretched cellar of a tenant house, having three young children, was suddenly attacked with a violent fit of croup. Having no means to pay for a physician, and no friend to take care of her children, should she become an inmate of the Hospital, Dr. Blumenthal, with characteristic alacrity, attended at her miserable abode, and she became convalescent. A few days afterwards, she was attacked with typhus fever, followed by bilious fever and rheumatism. From these three horrid diseases, she was cured ; still, she remained feeble and debilitated, with no one to attend to her wants, and her misery was increased by the sight of her three neglected children. The Visiting Committee thought it best to remove her to the Hospital, where she was perfectly restored to health.

John Roth.—In the month of June, application was made for the admission of an intelligent lad, seven years of age, who had never been able to walk, on account of a congenital deformity of the feet and legs. He had frequently applied to the most eminent of the medical faculty, but they either viewed his case as hopeless, or neglected to render him any assistance. A consul-

tation was held on his case, and an operation was recommended. This was successfully performed by Dr. W. Von Roth, the attending surgeon on duty, under whose able counsel and care the boy was so cured as not only to be able to walk, but, in November, to go home to his parents, raised from a condition of helplessness that would have rendered life miserable, to health and strength to buffet the storms of existence.

Henrietta Barnett, a little girl seven years of age, on account of the poverty and neglect of her parents, was suffering from scrofulous sores and diseased bone. She applied for admission into the Hospital, having previously been treated in the London Hospital, where they considered that an amputation of one of her arms would be necessary. The girl was admitted in June, and in October she was discharged, much improved.

Hannah Ahrens, a woman in the most abject state of distress, was admitted in May, having for several months been unable to walk or stand, on account of severe chronic rheumatism. After receiving the medical attention, care and comfort of the Institution until July, she left the Hospital in perfect health.

Henry Steinberg, a lad suffering from an injury in the head, was informed by his physician that trepanning would be necessary in order to avoid brain fever. Dr. Blumenthal visited the boy, and recommended his admission to the Hospital, where he was perfectly cured without any operation.

Independent of the good achieved by the Hospital by healing the sick, it has been the means, in several instances, of bringing our brethren back to their faith, in rescuing them from public charities, from want and misery, and restoring them to health and the abiding force and truth of Judaism.

There have been two births in the house during the year—Isaac Touro Lechtenstein, and Aaron Touro Boxsius, the middle name having been bestowed in honor of the memory of one of the greatest benefactors of the Institution.

The whole number of prescriptions put up during the year, was 1,840. In the male department, 1,257; in the female, 583.

Your Committee cannot refrain from calling the serious attention of the Board of Directors to a renewed consideration of the subject of admitting typhoid fever patients. Every week their

feelings are harrowed by listening to tales of woe they cannot ameliorate, by appeals from the most abject heirs of sickness, poverty and want, to whom they must refuse admittance because they are laboring under typhoid fever, and through fear that its contagious character might infect other patients.

Can no plan be devised to erect a building where they might be nursed and tended? Are those poor creatures to have no chance of recovery? Must they perish, or be sent from your doors to enter other hospitals? Think what a sad disappointment it is to them to be rejected by their brethren in faith.

The Committee are aware that you have asked the Faculty whether typhoid fever is contagious, and that the answer was in the affirmative. But will that alleviate the distresses of those who appeal to you for admission? Renew again the consideration of this subject, and, if necessary, appeal to the Jewish community for aid in this emergency. Such an appeal to Israel has ever been successful.

The cost of maintaining a patient, although depending in a great measure upon the nature of the disease under treatment, in all cases, exceeds the sum the Directors have named as the minimum price. Your Finance Committee will furnish you with all particulars.

The following persons are employed in the Hospital:—

1 Resident and Attending Physician—annual salary,	\$500
1 House Surgeon,	208
1 Superintendent,	400
Nurses,	312
Cook and domestics,	264

In all, nine persons, at yearly expense of \$1,684

The Committee cannot close this report without expressing their entire satisfaction with the attention and kindness of the medical staff attached to the Hospital, and with the Resident and Attending Physician for his urbanity of manners, devotion to the interests of the Hospital. His unwearied exertions in behalf of the afflicted, merit and deserve the thanks of the Board. The House Surgeon, Mr. E. G. Bryant, has been active and industrious, and studious of the welfare of the Institution.

Mr. Raymond, the Superintendent, continues indefatigable in

his exertions for the well-being of the Hospital. The wards and rooms are kept clean and well ventilated, and the comfort and happiness of the patients in all respects considered.

All of which is respectfully submitted.

BENJ. NATHAN,
LEWIS MAY,
JOSEPH FATMAN,

Report of Finance Committee.

The Finance Committee of the Directors of the "Jews' Hospital" beg leave to report that the receipts from all sources, during the year 1856, amount to the sum of \$7330 05, as presented in the following statement:

RECEIPTS.

Cash in hands of Treasurer.....	2370	65
Donation of N. K. Rosenfeld.....	1000	00
" of Bachelor Loan Association.....	800	00
" of Coal, Ludwig Schaper.....	500	00
Donations from other sources.....	2616	26
Dues of Members.....	1475	00
Interest on Bonds, &c.....	460	89
Board of Pay Patients.....	248	40
Debt of Theological Seminary	227	50
	9700	70

DISBURSEMENTS.

Paid on Buildings for Superintendent.....	964	42
" for Furniture.....	428	18
" for Provision.....	1726	87
" for Salaries and Wages.....	1511	14
" for Gas, Croton Water and Gen. Expenses.....	1049	50
" for Stationery.....	33	36
" for Fuel	477	10
" for Medicines and Surgical Instruments..	447	61
" for 2000 City 6½ Stock.....	1985	00
Balance in hands of Treasurer.....	1057	52
	9700	70

Statement showing actual expenses incurred from 25th Dec., 1855, to 28th Dec., 1856, in providing for 225 patients received in the Jews' Hospital:

Amount paid for Provisions.....	1726	87
" " Medicines & Surgical Ins'ts..	447	61
" " Salaries and Wages	1511	14
" " Fuel.....	497	10
Less on hand....	200	00
" Stationery.....	33	36
" General Expenses, Gas, Croton } Water, Assessments & Repairs }	1049	50
" Clothing for Patients, Beds and } Bedding.....	428	18
	\$5493	76

which, divided among 225 patients, gives \$24 49 the average expense of each patient.

The permanent fund of the Hospital amounts to seven thousand dollars, invested as follows :

\$5000 on bond and mortgage, 7 per cent.

\$2000 in City 6 per cent Central Park stock.

The income derived from this source is \$470 00

The number of Members appearing on the Ledger
whose annual dues are \$5 00 is 488, the income of
which amounts to 2440 00

There are also 22 life members.

The amount of cash on hand is 1057 52

The amount of donations made, but not collected, say 1500 00

\$4997 52

Deduct for arrears of Members and resignations, &c., 297 52

Probable nett amount of means, \$4700 00

The expenditures of the Hospital in supporting 300 patients, which is allowing an increase of 75 patients in the year, will amount to 7500 00

Showing a deficiency of \$2800 00
for the current expenses in 1857.

It will thus be perceived, that, should the admission of patients continue to increase, the means at the disposal of the Directors would be inadequate for the support of the Hospital ; and it therefore becomes a question of grave consideration, what measures should be adopted in order to avoid embarrassment in its fiscal affairs. The Directors have appealed to the friends of the Hospital for assistance, and it has been responded to with liberality ; yet they must urge them to do more in the good cause—either by obtaining donations or soliciting their friends to become members—or the usefulness of the Hospital will be impaired, and the number of patients limited to the means at the disposal of the Directors.

The Committee look forward to a more enlarged development of the uses of the Hospital ; and in this connection it is well to invoke the most serious consideration of the Directors and their friends to the subject of adopting some mode of increasing the permanent fund, so as to avoid the continued appeals to the community for means to enable the Directors to meet its expenses.

The property of the Hospital consists of

3 Lots of Ground, with the Buildings thereon,	\$32,717 83
Furniture - - - - -	1,751 81
Bond and Mortgage - - - - -	5,000 00
City 6 per cent. Central Park Stock -	2,000 00
Apothecary Department - - - - -	300 00
Cash in hand of Treasurer - - - - -	1,057 52
	<hr/>
	\$42,827 16

All of which is respectfully submitted.
